SUMMARY

A graduate of SMK Negeri 1 Cimahi with a major in Software Engineering, I have a deep-rooted passion for the IT and creative world. My academic background and practical experience have equipped me with a broad set of skills in various programming languages and tools.

EDUCATION

SMK Negeri 1 Cimahi

Software Engineering

Cimahi, West Java

Graduated, 2024

- **Concentrations:** Software and Game Development
- **GPA:** 87/100
- **Related Coursework:** Informatics, Basic Programming Skills, Field Work Practice

BINUS University

B.S. in Computer Science

Bandung, West Java

Expected Graduation, 2028

- **Concentrations:** Computer Science
- **GPA:** -
- **Related Coursework:** Data Structures & Algorithms, Objects & Design, Computer Organization & Programming, Object-Oriented Programming, Statistics & Applications

EXPERIENCE

PT Infinys Sistem Indonesia

Software Developer (Research and Development Intern)

Cimahi, West Java

Jan 2024 – Apr 2024

- Developed a custom Helpdesk module for Odoo 17 named "Helpdesk Opty" using XML and Python.
- Utilized GitLab for version control and collaboration.
- Worked in a Linux Ubuntu environment, leveraging virtual machines for development and testing.

PT. BARA Prima Multi Teknovasi

Full-stack Developer

Cimahi, West Java

May 2024 – Aug 2024

- Responsible for developing web applications for the Army Logistics Information System (Bekang AD) and Uchi Perfume Finance App, using Laravel and PostgreSQL.
- Collaborated with the team, contributing to all stages of development through to implementation.

Freelance

Web Developer

Cimahi, West Java

May 2025 – Oct 2025

- Engineered "Ringkasan Learn," an interactive educational platform using Nuxt.js for the frontend and Phoenix/Elixir for the backend, designed to visualize Euclid's Elements through step-by-step geometric constructions.
- Developed an immersive promotional website for "Illuminar Faire," a Live Action Role Playing (LARP) event, integrating fantasy inspired visuals, audio, and animations into a highly responsive UI.

Bina Nusantara Computer Club

Research And Development, Research And Development Manager

Bandung, West Java

Jan 2025 – Sep 2025

- Spearheaded the development of internal web applications, focusing on the BNCC Bandung Landing Page and the BNCC Showcase platform.
- Served as a Technology Project Member (TPM) Backend Mentor, providing technical guidance, code reviews, and architectural support to organizational members.

PROJECTS

Ujianify

Team Member

Cimahi, West Java

- Developed an anti-cheating examination website, incorporating student attendance features.
- Utilized a tech stack of Laravel for backend, Tailwind for design, and JavaScript for frontend functionality.

Stock Opname

Team Member

Cimahi, West Java

- Created a stock-taking website using Laravel and MySQL for backend development.

- Implemented frontend functionality with ReactJS and used TailwindCSS for design and styling.

SisfoBekangAD

Cimahi, West Java

Team Member

- Developed a comprehensive web-based logistics information system for the Indonesian Army (TNI AD) using Laravel and jQuery.
- Centralized the military supply chain operations, delivering dedicated features to track, manage, and optimize the distribution of critical supplies and equipment.

Ringkasan Learn

Bandung, West Java

Team Member

- Developed an interactive educational web platform to help students visualize and explore Euclids Elements through clear explanations and dynamic mathematical demonstrations.
- Built the robust frontend architecture using Nuxt.js, seamlessly integrating it with a Phoenix/Elixir backend and using JSXGraph to support complex geometric constructions.

Metria

Cimahi, West Java

Team Member

- Built a sustainable fashion social-commerce platform using Laravel, featuring user-centric tools such as a digital wardrobe, outfit mix-and-match capabilities, and accurate size recommendations.
- Implemented a fair order distribution system within the backend to equitably support local sellers and promote community driven shopping.

Illuminar

Cimahi, West Java

Team Member

- Developed an immersive promotional website for the Illuminar Faire LARP event, detailing comprehensive event lore, scheduled activities, and ticketing information.
- Crafted a highly engaging user experience by combining fantasy-inspired aesthetics, interactive UI components, web animations, and integrated audio.

ComicStore

Cimahi, West Java

Team Member

- Engineered an online storefront for independent comic distribution, supporting both integrated physical delivery shipping and automated digital PDF fulfillment via email.
- Integrated a third-party payment gateway to facilitate secure, manual-free instant checkouts and streamline the digital purchase pipeline.

SKILLS

Programming: Java, Python, JavaScript, TypeScript, HTML/CSS, MySQL, PHP, C++, C, XML, TailwindCSS

Tools: Android Studio, IntelliJ, Visual Studio, Visual Studio Code, Git

AWARDS AND ACHIEVEMENTS

Cimahi Digifest 2024: 2nd place.

Computational Thinking Tisigram Polban 2023: Finalist.

Icomfest 2024 Website Competition: 2nd place.

CSC CTF Contest 2024: 14th place.

Compfest AIC 16 : Finalist.

ICORIS 2026 Author.
